

WORDSEARCH ACTIVITY PACK

For this activity, we have created a collection of wordsearches with a range of topics and something of interest to everyone.

- Each wordsearch has a grid of letters and a list underneath. To complete this activity you must find the words within the grid of letters.
- The words will vary in difficulty levels and can be found in different directions, including horizontally, vertically, and diagonally.
- Participants can add an extra difficulty level by making it a race to complete and find all of the words.
- You can find the answers at the end of this pack to refer to once the Word searches are complete.
- For this activity, you will need a pen or pencil to outline the words once they are found.
